Education

- **Bachelor of Technology (B.Tech) in Computer Engineering**
NMIMS's Mukesh Patel School of Technology Management and Engineering (2026) CGPA: [9.47]
- **Diploma in Computer Engineering**
NMIMS's Mukesh Patel School of Technology Management and Engineering (2023) CGPA: [9.57]
- **Secondary School (10th Grade)**
D.A.V Public School (2020) Percentage: [89.5]

Skills

- **Languages:** Typescript, JavaScript, Python, HTML, CSS, C++, SQL, Java
- **Tools/Frameworks/Libraries:** SpringBoot, NextJS, ReactJS, ExpressJS, NodeJS, MongoDB, Code Igniter 4, VS Code, Postman, IntelliJ, TailwindCSS, Razor Pay, Git, GitHub, Docker, Kubernetes
- **Data science and analytics:** Numpy (Python), Pandas (Python), Power BI, Tableau
- **Soft Skills:** Leadership, Team Management, Confidence, Public Speaking, Honesty, Fast Learner
- **Familiar with:** R programming, C, Mobile Application Development (Android Studio)
- **Languages:** Hindi, English, Marathi

Experience

Freelance Project, Aambaazaar 04/2025

- Designed and Developed an Admin Panel and Ecommerce Marketplace Website using Next.js and Nodejs.
- Integrated **Razorpay** for secure payment processing.
- Preview at <https://aambaazaar.com/>

Full Stack Developer Intern, Nobrokerage.com | Mumbai 07/2024 – 08/2024

- Built an Admin Panel and Frontend Website using React.js, enabling dynamic content management.
- Developed a Node.js/Express.js backend to handle API calls and connect admin and frontend systems.
- Delivered a fully functional, scalable web solution in 45 days, enhancing site update efficiency.

Summer Intern, RBL Bank | Mumbai 07/2023 – 08/2023

- Conducted competitor analysis for a Super App combining MOBank and MyCard features.
- Designed information architecture and flowcharts to map user flows and optimize interactions.
- Contributed UI/UX improvements based on research insights, influencing product design decisions.

Projects

- **Real-Time Aviation Ticketing & Seat Blocking System** [Github](#)
Full Stack Microservices Architecture | 2024
 - **Situation:** Airlines needed a reliable system to manage real-time seat blocking and booking at scale, with high availability and secure user access.
 - **Task:** Design and build a scalable, cloud-native ticketing platform to support real-time booking, secure transactions, and seamless user experience.
 - **Action:**
 - Developed over **9 Spring Boot microservices** (e.g., Registry, Payments, Gateway) using **Open Feign (REST)** and **RabbitMQ (Advance Messaging Queue)** for efficient inter-service communication.
 - Implemented **real-time seat blocking and status updates** via **WebSocket**.
 - Secured APIs using **JWT authentication** and **role-based access control** to manage different user privileges.
 - Built a dynamic, SEO-optimized frontend using **Next.js** for enhanced user experience.
 - **Containerized services with Docker**, ensuring horizontal scalability and fault tolerance.
 - **Result:** Successfully delivered a **production-grade, real-time booking system**, capable of handling concurrent users and live updates, making the platform resilient, scalable, and user-centric.

- **CertiMail - Automated Certificate Distribution Platform**

Full Stack Application | 2024

[Preview](#) [Github](#)

- **Situation:** The organization required an automated solution to streamline certificate generation and distribution, reducing reliance on manual workflows.
- **Task:** Design and implement a full-stack platform for real-time certificate creation, dynamic styling, and automated email delivery.
- **Action:**
 - Developed a **React.js frontend** for user-friendly certificate generation and real-time preview.
 - Built a **Node.js/Express.js backend** with **NodeMailer** for automated email delivery.
 - Enabled seamless **template and Excel sheet uploads**, automating data mapping to ensure accurate certificate details.
- **Result:** Successfully automated the certificate distribution process, reducing manual effort and increasing workflow efficiency, leading to faster, error-free certificate dispatch.

- **Event Registration Form**

[Preview](#)

Nextjs Full Stack Application | 2024

- **Situation:** Developed a platform for event registration and payment processing for IET Mpstme On Campus.
- **Task:** Create a registration platform with live payment integration and real-time data management.
- **Action:**
 - Built a **Next.js application** with **validated forms** and **interactive landing page**.
 - Integrated **Razorpay** for secure payment processing.
 - Automated real-time **data insertion into Google Sheets** as the database via **Google Apps Script**.
- **Result:** Streamlined event registration and payment processing, automating data collection and improving event management efficiency

Courses and Certifications

- MongoDB and the Document Model – MongoDB | 2024
- Python 101 for Data Science – IBM | 2022
- Problem Solving (Basic) – Hackerrank | 2022
- Python (Basic) – Hackerrank | 2022
- ACM SemiCode (Competitive Coding Contest) Finalist 2023

Positions of Responsibility

Chairperson, IET Mpstme On Campus

05/2024 – 05/2025

- Leading and managing a student body with 8 departments and a team of 150 members.
- Organize and execute annual events, ensuring smooth operations and effective coordination.
- Overseeing departmental activities and improve processes to align with organizational goals.

Publicity Subhead, Taqneeq (College Annual Techfest)

09/2023 – 05/2024

- Led a team of 15 members responsible for publicizing events through social media and event listing sites.
- Managed and oversaw the execution of events hosted by TAQNEEQ, Managing flawless execution and harmonious teamwork.

Extra-Curricular Activities

Participation

- District-Level Football Player: Competed in district-level football for 2 years
- District-Level Handball Player: Played district-level handball for 2 years
- Model United Nations (MUN) Participant: Engaged in school MUN for 2 years,

Social Work

Seva Sahyog Foundation (May 2023 – June 2023)

- Conducted surveys with underprivileged girls in rural areas to assess their health, educational status, and needs.
